

CleanFeed 1.0

Overview

Strip Joomla content plugin {tags} from your RSS and ATOM feeds.

Installation

1. Download CleanFeed from the RicheyWeb download page.
 - This page will remain unlinked, as the link may change in the future. Visit <http://www.richeyweb.com> and use the search feature - search for "CleanFeed".
2. In Joomla /administrator, go to the "Extensions" menu, the "Manage" sub-menu, and the "Install" sub-menu.
3. Select the "Upload Package File" tab
4. Press the "Choose File" button to browse your system and locate the plugin file you downloaded
5. Press the "Upload & Install" button

At this point, the extension is installed but not enabled. You can find the plugin by going to the Extensions menu and selecting "Plugins". When in the plugin manager, search for "CleanFeed".

Configuration

Enable with defaults to remove all tags (recommended). It is also possible to enter the tag name(s) into the "Plugin Tags" configuration field (one per line) and the plugin will find and remove any tag that matches these patterns:

- {tagname}content{/tagname}
- {tagname setting=1}

HELP

No help has ever been requested for this plugin. Please report any bugs you find!
